MISSION STATEMENT

Our aim is to be recognised locally, regionally and nationally as a swimming club which enables athletes to achieve their personal goals in competitive swimming by improving their skills and fitness levels and by providing regular opportunities for competition.

In order to attain these goals our athletes will have structured training programmes tailored to meet their needs which are lead by qualified coaches and teachers.

We will provide the best environment for training and competition by forging and maintaining links and partnerships with facility providers, local authorities and other clubs.
